Recharge with one card
Europe-wide

OUR SERVICE

YOUR BENEFITS

Contract negotiations with the European charging network operators

You save time and personnel resources

The best charging tariffs for you and your customers

You have the direct contract relationship with your own customers

Absorption of interface costs and ongoing development

You appear to your customers under your Corporate Design

Automated billing

You benefit from a continuously growing charging station network

Plausibility checking of your customers charging operations

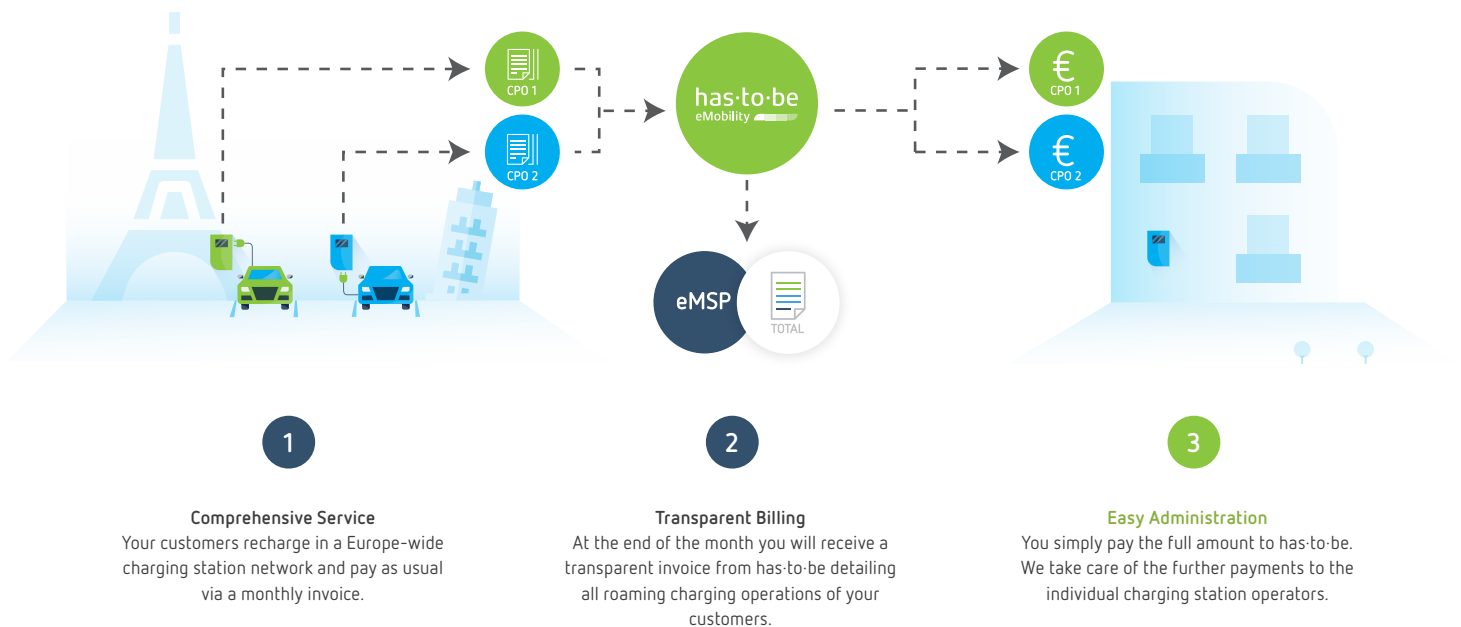

You can use the application flexibly and instantly activate it for your customers

SCOPE OF SERVICE

As soon as eMSP.OPERATION is activated, has-to-be takes over all tasks that accompany the Roaming operation – from secure data transfer up to the billing of charging operations.

- Plausibility checking: We check the charging operations of your customers for plausibility of charging duration, charging amount and costs.
- Automated billing for B2B: You receive a collective invoice from has-to-be for simplified bookkeeping.
- No contract negotiations: We look after the contract negotiations with charging station operators.
- Price negotiations: We take on the price negotiations and ensure you get the best charging rates.
